

## Storytime Adventures

*Storytime Adventures begin with a live reading of a storybook projected in our dome theater. Then, students go down to the Learning Labs for a craft that matches the book!*

### **Baby On Board**

Tucked in pouches, gripped in teeth, propped on backs, or underneath – these are just some of the clever ways animals carry their babies. How did someone carry you?

*Recommended for Pre-K – Grade 2*

### **Dino Tracks**

Step back in time and follow dinosaur tracks around the world! What dinosaurs made the tracks and what can we learn about them? Follow in their footsteps!

*Recommended for Pre-K – Grade 2*

### **Dino Treasures**

Dinosaurs are like treasures buried in the earth! Scientists “dig” their secrets, and you will too as we meet the amazing and wonderful creatures that lived in those long-ago times and uncover the clues they left behind!

*Recommended for Pre-K – Grade 2*

### **If You Love Honey**

Honey is a sweet gift from nature – ALL of nature, actually! Bees are only the beginning as we journey through the intertwining natural world around us. From the golden honey on bread to the earthworms crawling underground, children will discover how all of nature is connected!

*Recommended for Grade 1 – 2*

### **Over on the Farm**

Take a trip to the farm where pigs roll, goats nibble, horses gallop and turkeys strut! This interactive story allows children to practice counting and identify animals while having fun on the farm.

*Recommended for Pre-K – Grade 1*

### **The Prairie That Nature Built**

On the wide open prairie, animals abound! From tiny insects to majestic bison, this story will help children understand the interconnectedness of plants and animals as they explore one of the most endangered ecological systems in the world.

*Recommended for Pre-K – Grade 2*

### **Pitter & Patter**

Was that a raindrop that fell on your head? Where did it come from? Where is it going? Find out as Pitter and Patter will take you on a journey through the water cycle! Tumble from the sky, careen off a leaf, and plunge into a stream as you travel to an underground cave! Follow along and meet all the animals and plants that depend on our precious water!

*Recommended for Pre-K – Grade 2*
