### Instructions:

1. Choose 3-4 cupcake liners to be your flowers. Color the liners to make your flowers brighter!
2. Using scissors, cut lines along the edges of your cupcake liners to make flower petals.
3. Glue your flowers onto the blue construction paper.
4. Cut stems and leaves out of the green construction paper and glue them to your blue paper sheet. If you don't have green paper, you can draw your flower stems and leaves!
5. Decorate the center of your flower with different beads, chenille stems, or pieces of paper.
6. Draw some bugs and butterflies around your paper flower garden!
